

# EyeMotion

Multimedia Solutions for Eye Care

## You Asked... We Listened!

EyeMotion is pleased to present a brand-new, secure, online forms solution. This solution features forms that are--

### ✓ Secure, HIPAA-Compliant, Password Protected

Our forms are secure so your patients' confidential information is kept private. Each form features the https: prefix and little padlock, giving your website's users the assurance that these forms are absolutely safe. For each submitted form, you receive an email containing a password-protected link where you can retrieve the results.

### ✓ Online, Fillable

Your patients can fill out registration, medical history, and medical insurance forms ahead of time in the comfort and privacy of their own homes. Your office personnel can then process these forms when it is convenient for them.

### ✓ Fully-Customized or Ready-Made

We can duplicate any forms your practice already uses, or we can build new ones for you from scratch. Want to offer forms for school eye exams or dry-eye surveys? You merely need to provide us with the form or text. We can also add your logo, branding your forms for your practice.

EyeMotion also has a library of standard forms from which you can select.

### ✓ Attractive, Easy-to-Read Results

The results you receive after a patient submits a form are formatted exactly like the form on your website. No more squinting at tiny text!

## Special Introductory Pricing!

### One-Time Setup Fee:

- **\$75 per ready-made form.** This includes branding the form with your logo!
- --OR--
- **\$100-300 for most custom forms.** We will be happy to give you an estimate on any forms your practice is interested in having built.

### Annual Subscription:

- 1 Form \$150 total annual subscription
- 2 Forms \$250 total annual subscription
- 3 Forms \$300 total annual subscription

Give Julie or Stephanie a call today at 866.595.1476 to discuss your office's form needs! I would love to answer your questions and give you a demo of how our new forms system works.
